

# JOURNAL OF THE NIGERIAN ASSOCIATION OF MATHEMATICAL PHYSICS

[TNAMP]

*New*  
Guidelines for  
contributors

*Manuscripts* should be submitted in triplicate copies along with a non-refundable fee of **₦2,000.00** (Two thousand naira only) in bank draft written in favour of Professor J.O.A. Idiodi, whose address appears below. Manuscripts can also be submitted via e-mail to the Editor-in-chief (see the e-mail address below) **Currently issues of the Journal appear every year in the months of January, March, May, July, September and November.** Articles are entertained all the year round but authors wishing their manuscript to be published in any of the journal issues should endeavor to submit their manuscripts at least two months earlier than the month of the Journal issue.

The submission of a paper implies *it has not been* published elsewhere, and it is not under consideration for publication with other journals. Once a paper is accepted, it is assumed that the author has ceded the copyright to the Nigerian Association of Mathematical Physics.

Manuscripts must be in English Language, should be typed in double spacing and should not exceed 20 typed A4 paper in length. Authors are urged to pay careful attention to symbols, which should be typed neatly and unambiguously, *using equation editor (NOT SYMBOLS) and separating equation number from the equation file and each equation statement should NOT BE GROUPED and should be properly aligned to distinguish subscripts and superscripts. Any paper with mathematical equations, typed without using equation editor would not be accepted and equations should not be grouped as objects. All tables, figures and references must be cited in the body of the paper. Tables, figures and references should be numbered in the order in which they are cited in the text. All graphs and figures should be neatly drawn or plotted and bold enough in case of enlargement.*

The Standard International (SI) system of units should be used in all manuscripts. Unusual symbols, abbreviations or notations should be defined when first mentioned in the text.

*Authors should also submit CD (Compact disc, not diskette) containing their manuscripts done in Microsoft word 2003 and NOT in PDF. Authors should be sure that their soft copy is VIRUS-FREE, otherwise the paper would be rejected and any paper not on CD would also be rejected.*

Manuscripts should contain the following headings, where appropriate: **Title** (followed by the author's name, address, e-mail and phone number); **Abstract** (that is, a brief summary of the contents and conclusion of the paper, not exceeding 200 words); **Introduction, Theoretical analysis, Experimental work, Results and Discussion, Conclusion, Acknowledgement and References.** The numbering of the headings and subheadings and references should be as in the Journal of NAMP.

All papers will be acknowledged and refereed and papers once received will not be returned to authors Contributors of an accepted paper will be expected to pay a publication charge. As a result of the highly unstable economic climate, publication charges are subject to frequent review. Contributors of articles are therefore expected to liaise with the Editor-in-chief to obtain the most recent information on the charges they are to pay.

*Professor J.O.A. Idiodi,  
Editor-in-chief,  
e-mail address:jidiodi@hotmail.com,  
Department of Physics,  
University of Benin, Benin City,  
Nigeria.*

# Contents

Global Analysis of Disease-Free Equilibrium Of A Mathematical Model Of Tuberculosis Using Lyapunov Method	<i>Egbetade S.A., Olayiwola A.F. and Adeleke E.O.</i>	<b>103</b>
Numerical Solution Of A Tuberculosis Mathematical Model By Homotopy Analysis Method	<i>Egbetade S.A., Olayiwola A. F. and Adeleke E. O.</i>	<b>107</b>
The Relationship Between Government Expenditure And Economic Growth In Africa: Evidence From Dynamic Common Correlated Effects Panel Estimators	<i>Mayaki J., Olanrewaju S.O., Adeyemi R.A., Abdullahi U. and Muhammad A.T.</i>	<b>115</b>
Statistical Analysis On The Performance Of Students In Some Selected Mathematical Courses At Ibrahim Badamasi Babangida Univ Lapai, Niger State	<i>Muhammad A.T., Badeggi A.Y., Adamu A.I., Yusuf J.D., Sheshi M.M.<sup>5</sup> Mayaki J. and Abdullahi S.M.</i>	<b>123</b>
Mean Count Rate Measurement Of Different Construction Materials Locally Sourced Within The Makurdi Metropolis, Benue State	<i>T. Daniel<sup>1,*</sup>, A. N. Terlumun<sup>1</sup>, F. Eriba-Idoko<sup>1</sup>, A.A. McAsule<sup>2</sup>, S.T. Kungur<sup>3</sup>, J.T. Ikyumbur<sup>1</sup>, S. J. Gemanam<sup>1,4</sup>, N. S. Akiiga<sup>2</sup>, F. Gbaorun<sup>1</sup> and T. Igbawua</i>	<b>133</b>
Prediction Of Broncho-Pneumonia Status On Infants In Niger State Using Binary Logistic Regression	<i><sup>1</sup>S. S. Ahmed, <sup>1</sup>M. T. Gana, <sup>2</sup>A. S. Moh'd, <sup>1</sup>M. A. Mustapha, <sup>1</sup>A. Makada and <sup>1</sup>I. S. Ango</i>	<b>141</b>
Heat Flow And Geothermal Gradient Studies In Parts Of Southern Benue Trough	<i>Nwokoma E. U.<sup>1*</sup>, Ijeh, B. I.<sup>1</sup>, Azunna D. E<sup>2</sup> and Anyadiegwu, F.C<sup>1</sup>.</i>	<b>149</b>
Radon Exhalation Rates And Effective Doses In Granites And Gravels Used For Residential Buildings In South-Western Nigeria	<i>Aladeniyi K.</i>	<b>157</b>
Adaptive Image Compression Using The Jpeg Image Compression Algorithm	<i>B. P. Ndahi<sup>1</sup>, A. Isa<sup>1</sup> and H. A. Amshi<sup>2</sup></i>	<b>167</b>
Design And Implementation Of A 40a, 12v Solar Charge Controller With Pulse Width Modulation	<i>Omorogiuwa O.S. and Iyekepolo E.N.</i>	<b>171</b>
Design Of A Solar Powered Industrial Product Counter	<i>Iyekepolo E.N. and Omorogiuwa O.S.</i>	<b>183</b>
24 Hours Prediction Of Hot Spot Temperature And Percentage Loss Of Life In A 15mva Electricaltransformer Using Artificial Neural Network, Multiple And Baggy Regression	<i>K. O. Ojo<sup>1</sup>, J. O. Eguale<sup>2</sup> and E. M. Agbonifo<sup>3</sup></i>	<b>193</b>

## **Contents: = = = = = = = = = = = = = = =**

A Vector Topology Is Uniformizable	<i>Sunday Oluyemi</i>	<i>1</i>
Notes on Seminorms and Continuity	<i>Sunday Oluyemi</i>	<i>5</i>
Non-Relativistic Study of Generalized Yukawa Potential to Predict the Mass-Spectra Of Heavy Quarkonium System <i>E.P. Inyang, E.A. Ibanga, F. Aiyedun, J.E. Ntibi and E.S. William</i>		<i>9</i>
Solution of First-Order Linear System of Ordinary Differential Equation By Method Of Laplace Transform	<i>U. Kalu</i>	<i>15</i>
A Numerical Scheme For A Fluid Dynamic Traffic Flow Model with One-Point Boundary Condition <i>F. Attah, P.N. Habu and E. Anthony</i>		<i>19</i>
Comparative Analysis of Round Robin, Highest Response Ratio Next and Dynamic Quantum Based Round Robin Scheduling Algorithm <i>Suleiman T., Iliyasu U. and Hassan K.A.</i>		<i>25</i>
Numerical Analysis of the Effects of Mosquito Biting Rate on the Transmission Dynamics Of Malaria <i>Fasasi Y. A., Sogbetun L.O., Egbetade S.A., Ganiyu K.A. and Adedoja S. A.</i>		<i>31</i>
Unsteady Mhd Double Diffusive Flow Of Casson Fluid Past Stretching Sheet Embedded In A Porous Medium With Variable Thermo-Physical Property And Nano-Particles <i>Sogbetun L.O., Fasasi Y.A., Akinosho G.A. and Ogunbade A.O.</i>		<i>35</i>
A Five Step Collocation Procedure By Means Of Perturbation Term with Application To Solve Second Order Ordinary Differential Equation. <i>Aigbiremhon A.A. and Usuomon J.</i>		<i>51</i>
Data-Driven Screening Of Ebola Disease In Nigeria Using Machine Learning Algorithms <i>Augusta Aghaulor</i>		<i>69</i>
Development Of Micro-Controller Based Intelligent Fire Fighting Robot <i>P.O. Alao, A.A. Okandeji, Z.O. Jagun, S.N. Ukagu and R. Oloye</i>		<i>77</i>
Random $b_i$ Chance-Constrained Stochastic Programming: An Application <i>C. I. Nwokike and M. O. Oladejo</i>		<i>83</i>
Numerical Application Of Chebyshev Polynomial For Approximation Of Solutions Of Elliptic Partial Differential Equations <i>Sunday Babuba</i>		<i>89</i>
The Effect Of Stochastic Volatility Process On The Value Of An Asset <i>B.O. Osu, C.P. Ogbogbo and C.N. Obi</i>		<i>95</i>
