

# JOURNAL OF THE NIGERIAN ASSOCIATION OF MATHEMATICAL PHYSICS

[TNAMP]

*New*  
Guidelines for  
contributors

*Manuscripts* should be submitted in triplicate copies along with a non-refundable fee of **₦2,000.00** (Two thousand naira only) in bank draft written in favour of Professor J.O.A. Idiodi, whose address appears below. Manuscripts can also be submitted via e-mail to the Editor-in-chief (see the e-mail address below) **Currently issues of the Journal appear every year in the months of January, March, May, July, September and November.** Articles are entertained all the year round but authors wishing their manuscript to be published in any of the journal issues should endeavor to submit their manuscripts at least two months earlier than the month of the Journal issue.

The submission of a paper implies *it has not been* published elsewhere, and it is not under consideration for publication with other journals. Once a paper is accepted, it is assumed that the author has ceded the copyright to the Nigerian Association of Mathematical Physics.

Manuscripts must be in English Language, should be typed in double spacing and should not exceed 20 typed A4 paper in length. Authors are urged to pay careful attention to symbols, which should be typed neatly and unambiguously, *using equation editor (NOT SYMBOLS) and separating equation number from the equation file and each equation statement should NOT BE GROUPED and should be properly aligned to distinguish subscripts and superscripts. Any paper with mathematical equations, typed without using equation editor would not be accepted and equations should not be grouped as objects. All tables, figures and references must be cited in the body of the paper. Tables, figures and references should be numbered in the order in which they are cited in the text. All graphs and figures should be neatly drawn or plotted and bold enough in case of enlargement.*

The Standard International (SI) system of units should be used in all manuscripts. Unusual symbols, abbreviations or notations should be defined when first mentioned in the text.

*Authors should also submit CD (Compact disc, not diskette) containing their manuscripts done in Microsoft word 2003 and NOT in PDF. Authors should be sure that their soft copy is VIRUS-FREE, otherwise the paper would be rejected and any paper not on CD would also be rejected.*

Manuscripts should contain the following headings, where appropriate: **Title** (followed by the author's name, address, e-mail and phone number); **Abstract** (that is, a brief summary of the contents and conclusion of the paper, not exceeding 200 words); **Introduction, Theoretical analysis, Experimental work, Results and Discussion, Conclusion, Acknowledgement and References.** The numbering of the headings and subheadings and references should be as in the Journal of NAMP.

All papers will be acknowledged and refereed and papers once received will not be returned to authors Contributors of an accepted paper will be expected to pay a publication charge. As a result of the highly unstable economic climate, publication charges are subject to frequent review. Contributors of articles are therefore expected to liaise with the Editor-in-chief to obtain the most recent information on the charges they are to pay.

*Professor J.O.A. Idiodi,  
Editor-in-chief,  
e-mail address:jidiodi@hotmail.com,  
Department of Physics,  
University of Benin, Benin City,  
Nigeria.*

# Contents

===== :

Design of an Overtemperature Protection System for an LLC Converter	<i>Bello N. and Odiase F.O.</i>	<b>107</b>
Design and Stimulation of Interleaved Buck Converter	<i>Bello N. and Odiase F.O.</i>	<b>113</b>
The Effects of Magnesium Oxides Nanoparticles in Fines Creation and Migration in Synthetic and Reservoir Sands Porous Formations	<i>S.A. Igbidere and D.O. Onaiwu</i>	<b>117</b>
Vehicle Security System with Remote-Control Via Dtmf Using Gsm	<i>Okuonghae T.E. and Ojo K.O.</i>	<b>121</b>
Design And Implementation Of A Programmable Electric Cooker Using an Android App.	<i>Ojo K.O. and Okuonghae T.E.</i>	<b>129</b>
Factors Influencing Student's Perception In Computer Programming	<i>Campbell P.I., G.O. Aziken, D.N. Idehen and F.A. Egbokhare</i>	<b>135</b>
Using Semi Average Method For The Trend Of Malaria Cases In Nigeria	<i>Olasupo A.O., Hassan S.O., Omoteso K.A., Ayodele M.A. and Ajani A.S.</i>	<b>143</b>
Weekend Prediction of Hot Spot Temperature and Percentage Loss of Life in A 15MVA Electric Power Transformer Using Artificial Neural Network, Multiple Regression, And Baggy Regression	<i>K.O. Ojo, E.U. Ubeku and J.O Eguaille</i>	<b>145</b>
Well Stimulation Methods In Petroleum Recovery: Using Hydraulic Fracturing and Acidizing In "Well X" Niger Delta Basin	<i>E.J. Ighodaro and E.G. Maju-Oyovwikowhe</i>	<b>153</b>
Stability Conditions For The Uniqueness Of Limit Cycles In Pre-Predator Systems Of Ivlev Type.	<i>Achie Ismailu and Abdul Garba Saddiq</i>	<b>159</b>
An Optimal Model for Student Performances Obtained By Application of Multiple Regression And Linear Discriminant Models	<i>Achie Ismailu and Abdul Garba Saddiq</i>	<b>163</b>
Evaluation of Conflict Between Fulani Herdsmen and Farmers In Shiroro Local Government, Niger State.	<i>Imam Muhammad Bello, Audu Makada and Abubakar Kolo</i>	<b>175</b>

Vol. 61

## Contents: = = = = = = = = = = = = = = =

On Weibull-Odd Fréchet G Family Of Distributions: Statistical Properties And Applications <i>Usman A., S.I.S. Doguwa, B.B. Alhaji and A.T. Imam</i>	<i>1</i>
The Power Series Approximation of the Third Derivative Block Method for the Solution of Higher Order Ordinary Differential Equations <i>J. Sabo, F.J. Adeyeye and Y. Skwame</i>	<i>11</i>
Matrix Representation Of Multiset Relations And Its Compositions <i>A.O. Aliyu and D. Singh</i>	<i>17</i>
Comparative Analysis of Population Model Using Discrete And Natural Model: Case Study of Delta State Polytechnic, Ogwashi-Uku <i>Atajeromavwo E.J., Nwabudike A.A., Osazuwa L.O. and Akazue E.C.</i>	<i>23</i>
Revolutionary Power of Internet Technology In Research Development <i>Olaniyan J.O., Odighi M.O., Imhanlahimi R.E. and Olaniyan D.</i>	<i>31</i>
A Performance Evaluation of 4G Mobile Network <i>O.R Abolade, A.A Okandeji, F. Onaifo, A.O Oyedeji, P.O Alao, and A.A Okubanjo</i>	<i>41</i>
Estimation of Rooftop Solar Photovoltaic Potential of a University <i>Sufianu A. Aliu and Jude C. Chukwu</i>	<i>47</i>
Comparative Study of the Prediction of HMF2 Using Three Different Ionospheric Models at an Equatorial West African Station <i>E J. Oluwadare, A.O. Oluwadare, O.E Abe, O.O. Odeyemi, J.O. Adeniyi and E.O. Oyeyemi</i>	<i>55</i>
Stormwater Quality Enhancement Using Snail Shell Powder As A Natural Coagulant <i>Bobor L.O. and Adhekewigre O.G.</i>	<i>63</i>
Zinc Uptake from Aqueous Solutions Using <i>Moringa Oleifera</i> Seeds and Commercial Activated Carbon <i>Bobor L.O. and Enabulele D.I.</i>	<i>67</i>
On Combined Effects of Radiation, Perturbations, Oblateness And Disc On Motion around Collinear Lagrangian Points of Restricted Three-Body Problem <i>Oni Leke and Joel John Taura</i>	<i>71</i>
Impact of Heat Source, Chemical Reaction and Soret on MHD Pulsatile Flow over an Inclined Porous Plate with Thermal Radiation <i>E. Omamoke, E. Amos and I. Funakpo</i>	<i>77</i>
Vulnerability Of Rfid Technology: Cloning Of Low Frequency RFID Card <i>Evbuomwan E. and Iyekepolo E.N.</i>	<i>91</i>
Performance Comparison of Modulation Schemes for Optimal Data Transmission At High Frequencies <i>Iyekepolo E.N. and Evbuomwan E.</i>	<i>101</i>
