

# JOURNAL OF THE NIGERIAN ASSOCIATION OF MATHEMATICAL PHYSICS

[TNAMP]

*New*  
Guidelines for  
contributors

*Manuscripts* should be submitted in triplicate copies along with a non-refundable fee of **₦2,000.00** (Two thousand naira only) in bank draft written in favour of Professor J.O.A. Idiodi, whose address appears below. Manuscripts can also be submitted via e-mail to the Editor-in-chief (see the e-mail address below) **Currently issues of the Journal appear every year in the months of January, March, May, July, September and November.** Articles are entertained all the year round but authors wishing their manuscript to be published in any of the journal issues should endeavor to submit their manuscripts at least two months earlier than the month of the Journal issue.

The submission of a paper implies *it has not been* published elsewhere, and it is not under consideration for publication with other journals. Once a paper is accepted, it is assumed that the author has ceded the copyright to the Nigerian Association of Mathematical Physics.

Manuscripts must be in English Language, should be typed in double spacing and should not exceed 20 typed A4 paper in length. Authors are urged to pay careful attention to symbols, which should be typed neatly and unambiguously, *using equation editor (NOT SYMBOLS) and separating equation number from the equation file and each equation statement should NOT BE GROUPEd and should be properly aligned to distinguish subscripts and superscripts. Any paper with mathematical equations, typed without using equation editor would not be accepted and equations should not be grouped as objects. All tables, figures and references must be cited in the body of the paper. Tables, figures and references should be numbered in the order in which they are cited in the text. All graphs and figures should be neatly drawn or plotted and bold enough in case of enlargement.*

The Standard International (SI) system of units should be used in all manuscripts. Unusual symbols, abbreviations or notations should be defined when first mentioned in the text.

*Authors should also submit CD (Compact disc, not diskette) containing their manuscripts done in Microsoft word 2003 and NOT in PDF. Authors should be sure that their soft copy is VIRUS-FREE, otherwise the paper would be rejected and any paper not on CD would also be rejected.*

Manuscripts should contain the following headings, where appropriate: **Title** (followed by the author's name, address, e-mail and phone number); **Abstract** (that is, a brief summary of the contents and conclusion of the paper, not exceeding 200 words); **Introduction, Theoretical analysis, Experimental work, Results and Discussion, Conclusion, Acknowledgement and References. The numbering of the headings and subheadings and references should be as in the Journal of NAMP.**

All papers will be acknowledged and refereed and papers once received will not be returned to authors Contributors of an accepted paper will be expected to pay a publication charge. As a result of the highly unstable economic climate, publication charges are subject to frequent review. Contributors of articles are therefore expected to liaise with the Editor-in-chief to obtain the most recent information on the charges they are to pay.

*Professor J.O.A. Idiodi,  
Editor-in-chief,  
e-mail address:jidiodi@hotmail.com,  
Department of Physics,  
University of Benin, Benin City,  
Nigeria.*

# Contents

===== :

Analysing the Effect of Sand Production on ESP Run Time <i>Ohenhen I. and Igbidere S. A.</i>	<b>89</b>
The Use of Geophysical Prospecting Method in Groundwater Exploration: A Case Study Of Sapele, Delta State, Niger Delta Basin, Nigeria <i>N.P. Komolafe, E. J. Ighodaro and O. Andre-Obayanju</i>	<b>97</b>
Detection Of Leachate Plume Migration At Municipal Dumpsite Utilizing Very Low Frequency (Vlf) Electromagnetic Method In Benin City South-South Nigeria <i>IGHODALO E.J., UKADIKE O. and Shuaibu A.</i>	<b>107</b>
<sup>226</sup> Ra, <sup>232</sup> Th and <sup>40</sup> K Contents In Some Natural And Carbonated Fruits Commonly Consumed In Plateau State, North Central Nigeria and their Annual Effective Dose to Human Population <i>Akila Simdet, Mallo Iliya Yohana, Abdullahi Musa, Cirfat Timchang Takbol and Gokir Ali Justin</i>	<b>113</b>
Quantification of Municipal Solid Waste in Benin Metropolis as Feedstock for Bioethanol Production <i>Biose O., Imhontu M., Akenzua O., Okorie C., Onabe J., Atsegba B., Angalapu J., Kubeyinje B. and Igbinomwahia D.I.</i>	<b>117</b>
Of the Existence and Uniqueness of Mathematical Model of Chain-Branching And Chain- Breaking Kinetics <i>Waheed A.A., Sangoniya S.O. and Salawudeen K.A.</i>	<b>121</b>
Assessment of Annual Effective Dose Associated WITH Radon-222, Gross Alpha and Gross Beta Radioactivity in Ground Water Around Zurmi Gold Mining Environs, Zamfara State, Nigeria <i>M. U. Ibrahim, N. Abdulazeez, A.S. Gidado and F. Ahmed</i>	<b>127</b>
On Extension of Optimal Replacement Time Of A Series System <i>T.A. Waziri, S. Maikudi, M.B. Abdullahi and M. Izuddeen</i>	<b>133</b>
Using Matrix of Demand to Determine Patronage In Hotels <i>Izevbizua O and Nomuoja A. J.</i>	<b>139</b>
Flexural Characteristics of Hollow Cored Rectangular Plain Concrete Beams Using Finite Element Approach <i>O.U. Orié and U.K. Ogbonna</i>	<b>147</b>
Development of a Currency Recognition System for Nigerian Paper Currency <i>Osunsanya K.O. and Omoze E.L.</i>	<b>153</b>
Endemic Equilibrium Point of a Mathematical Model for Dengue Chikungunya Virus <i>R.U. Akhaze and D. U.Okuonghae</i>	<b>159</b>
