

TRANSACTIONS OF THE NIGERIAN ASSOCIATION OF MATHEMATICAL PHYSICS [TNAMP]

New
Guidelines for
contributors

Manuscripts should be submitted in triplicate copies along with a non-refundable fee of **₦2,000.00** (Two thousand naira only) in bank draft written in favour of Professor J.O.A. Idiodi, whose address appears below. Manuscripts can also be submitted via e-mail to the Editor-in-chief (see the e-mail address below) **Currently three issues of the Transactions** are published each year and they appear in the months of January, July and November.

Articles are entertained all the year round but authors wishing their manuscript to be published in any of the journal issues should endeavor to submit their manuscripts at least five months earlier than the month of the Journal issue.

The submission of a paper implies *it has not been* published elsewhere, and it is not under consideration for publication with other journals. Once a paper is accepted, it is assumed that the author has ceded the copyright to the Nigerian Association of Mathematical Physics.

Manuscripts must be in English Language, should be typed in double spacing and should not exceed 20 typed A4 paper in length. Authors are urged to pay careful attention to symbols, which should be typed neatly and unambiguously, *using equation editor (NOT SYMBOLS) and separating equation number from the equation file and each equation statement should NOT BE GROUPEd and should be properly aligned to distinguish subscripts and superscripts. Any paper with mathematical equations, typed without using equation editor would not be accepted and equations should not be grouped as objects. All tables, figures and references must be cited in the body of the paper. Tables, figures and references should be numbered in the order in which they are cited in the text. All graphs and figures should be neatly drawn or plotted and bold enough in case of enlargement.*

The Standard International (SI) system of units should be used in all manuscripts. Unusual symbols, abbreviations or notations should be defined when first mentioned in the text.

Authors should also submit CD (Compact disc, not diskette) containing their manuscripts done in Microsoft word 2003 and NOT in PDF. Authors should be sure that their soft copy is VIRUS-FREE, otherwise the paper would be rejected and any paper not on CD would also be rejected.

Manuscripts should contain the following headings, where appropriate: **Title** (followed by the author's name, address, e-mail and phone number); **Abstract** (that is, a brief summary of the contents and conclusion of the paper, not exceeding 200 words); **Introduction, Theoretical analysis, Experimental work, Results and Discussion, Conclusion, Acknowledgement and References. The numbering of the headings and subheadings and references should be as in the Journal of NAMP.**

All papers will be acknowledged and refereed and papers once received will not be returned to authors. Contributors of an accepted paper will be expected to pay a publication charge. As a result of the highly unstable economic climate, publication charges are subject to frequent review. Contributors of articles are therefore expected to liaise with the Editor-in-chief to obtain the most recent information on the charges they are to pay.

*Professor J.O.A. Idiodi,
Editor-in-chief,
e-mail address: jidiodi@hotmail.com,
Department of Physics,
University of Benin, Benin City,
Nigeria.*

===== :

Three Error Terms in Modeling Growth Domestic Product in Nigeria	<i>U.M. Sani, A.Samson and S.S.Ahmed</i>	<i>175</i>
Application of Stability Test on consistency coefficient parameters at Drop-point: Evidence of Nigeria Growth Domestic Product (GDP).	<i>U.M.Sani, A.Samson and S.S.Ahmed</i>	<i>183</i>
Causal Relationship between Stock Prices and Foreign Direct Investment on Macroeconomic Variables: A Case of Nigeria	<i>Musa Y., Shuaibu A. and Musa U. B.</i>	<i>189</i>
Time Series Analysis of Factors Affecting Foreign Direct Investments in Nigeria	<i>Musa Y. and Agwamba E. N.</i>	<i>197</i>
On The Stability And Contraction Of Fixed Point Of The Solution Of Black-Scholes Equation In Hilbert Space	<i>B. O. Osu ,U. E. Obasi and D. Francis</i>	<i>205</i>
The Impact of Shocks Correlation On The Optimal Asset Allocation For An Investor with Ornsten-Uhlenbeck Stochastic Interest Rate Model	<i>S. A. Ihediohia, B. I. Oruh and B. O. OSU</i>	<i>211</i>
Mitigating Word Semantic Similarity In Information Retrieval Using Concept Information Content And Its Hierarchy	<i>Abdullah K-K. A and Robert A.B.C</i>	<i>217</i>
On Some Properties of A Three Parameter Generalized Lindley Distribution	<i>N. Ekhosuehi , O. Okunbowa and F. Opone</i>	<i>225</i>
Extension of Information Cases On Mixture Ratio Estimators Using Multi-Auxiliary Variables And Attributes In Two-Phase Sampling	<i>Ogunyinka Peter I. and Sodipo A. A.</i>	<i>237</i>
Statistical Properties of The Exponentiated Skew-T Distribution	<i>H.G. Dikko and S. Agboola</i>	<i>251</i>
Alternative Single And Two-Phase Factor-Type Estimators In Sample Survey	<i>A. Audu and A. A. Adewara</i>	<i>261</i>
Theoretical Study of Structural and Electronic Properties of AlAs, InAs and Al _x In _{1-x} As Alloy	<i>Nenuwe O. N. and Ukhurebor E. K.</i>	<i>273</i>

Contents

Variation Iteration Decomposition Method for Analytic Solution of Gas Dynamic Equation	<i>Ebimene J. Mamadu and Joshua S. Apanapudor</i>	57
Solution of Certain Boundary-Value Problems In A Semi-Finite Domain By Adomian Sumudu Transform Decomposition Method	<i>E.I. Akinola and O.M. Ogunlaran</i>	61
A family of second derivative multistep methods for stiff initial value problems	<i>A.M. Alkali, A. O. Adesanya and R. O. Onsachi</i>	67
Three step explicit non-linear method for stiff and singular first order initial value problems	<i>A. O. Adesanya, M. S. Kefas and R. O. Onsachi</i>	75
Single step continuous block method for stiff initial value problems	<i>A. M. Alkali, A. F. Umaru, R. O. Onsachi and A. O. Adesanya</i>	79
2 and 4-Steps Block Hybrid Linear Multistep Methods for Solution of Special Second Order Ordinary Differential Equations.	<i>S. D. Yakubu, Y. A. Yahaya and K. O. Lawal</i>	87
Spectral Collocation Method for The Numerical Solution Of Ordinary Differential Equations	<i>O. M. Ibrahim, P. W. Lawrence and M. N. O. Ikhile</i>	95
On the Construction of High Accuracy Symmetric Super-Implicit Hybrid Formulas with Phase-Lag Properties	<i>O. M. Ibrahim and M. N. O. Ikhile</i>	101
Laplace Transform-Chebyshev Collocation Method for Solving Third-Order Multi-Point Boundary Value Problems	<i>A.O. Adewumi, O.M. Ogunlaran and R.A. Raji</i>	109
Equal Duration Shift Schedule Model of One Lunch Break And One Relief Break With Overlap	<i>O. Igbinsosa and ²P.O. Ekoko</i>	115
On The Stability Analysis Of Infantile Paralysis	<i>Anka G.H., Yusuf I., Yayock J.F., Mayaki Z.I. and Usman B.T.</i>	123
Effect of Environment On The Dynamics of Tobacco Smoking: A Mathematical Modelling Approach	<i>Yayock J.F., Mayaki Z.I., Anka G.H. and Yusuf I.</i>	135
Numerical Solution of Hydromagnetic Flow Past An Infinite Vertical Porous Plate	<i>K. K. Asogwa</i>	143
Steady State Free Convection Hydro magnetic Flows of Viscous Fluid with Convective Surface Boundary Condition	<i>S.K Ahmad, B.Y. Isah and Anas Maihulla</i>	151
Effect of energy dissipation on group velocity evolution for mechanics of sea waves.	<i>C.I. Ifediora</i>	165
