Transactions of the Nigerian Association of Mathematical Physics Volume 13, October - December, 2020

Foreword

In the foreword to the Journal of NAMP, whose maiden issue came out in 1992, it has been noted that there were only very few scientists in Nigeria who could strictly speaking be called Mathematical Physicists. For this reason, it was decided that the term Mathematical Physics should be broadened to mean: any Scientist who applies fairly rigorous mathematics to Physics, Chemistry, Engineering, or other sciences and also any Mathematician whose results have direct applicability in Physics, Chemistry, Engineering and so forth. In a great country like Nigeria, the process of growth which led to the formation of NAMP in 1979 has produced, as at today, quite a number of scientists whose works bear signatures of the true meaning of the term Mathematical Physicist. To capture such works is the burden of this second Journal of NAMP, called **Transactions** of the Nigerian Association of Mathematical Physics.

It is my sincere hope that several scientists will try to have their works published in the Transactions of NAMP.

PREFACE

This special volume consists of peer reviewed papers presented on the occasion of the 70th birthday and the formal retirement of Professor John O.A. Idiodi, from the service of the University of Benin. He served the University and the National and International Scientific Communities meritoriously for a period of about 45years spanning October 1975 to January 2nd 2020. During this period he has produced several M.Sc and Ph.D students.

Since 1997 Professor John O.A. Idiodi has been the Editor-in-Chief of the Journal of the Nigerian Association of Mathematical Physics. He is also the Editor-in-Chief of the Transactions of the Nigerian Association of Mathematical Physics since 2015.

As you go through this special volume, I trust that you would find the papers interesting and sufficiently diverse.

Professor Godfery E. Akpojotor

Chairman Organizing Committee
