

TRANSACTIONS OF THE NIGERIAN ASSOCIATION OF MATHEMATICAL PHYSICS

[TNAMP]

New

Guidelines for contributors

Manuscripts should be submitted in triplicate copies along with a non-refundable fee of **₦2,000.00** (Two thousand naira only) in bank draft written in favour of Professor J.O.A. Idiodi, whose address appears below. Manuscripts can also be submitted via e-mail to the Editor-in-chief (see the e-mail address below) **Currently issues of the Transactions appear every year in the months of January, March, May, etc.**

Articles are entertained all the year round but authors wishing their manuscript to be published in any of the journal issues should endeavor to submit their manuscripts at least two months earlier than the month of the Journal issue.

The submission of a paper implies *it has not been* published elsewhere, and it is not under consideration for publication with other journals. Once a paper is accepted, it is assumed that the author has ceded the copyright to the Nigerian Association of Mathematical Physics.

Manuscripts must be in English Language, should be typed in double spacing and should not exceed 20 typed A4 paper in length. Authors are urged to pay careful attention to symbols, which should be typed neatly and unambiguously, *using equation editor (NOT SYMBOLS) and separating equation number from the equation file and each equation statement should NOT BE GROUPEd and should be properly aligned to distinguish subscripts and superscripts. Any paper with mathematical equations, typed without using equation editor would not be accepted and equations should not be grouped as objects. All tables, figures and references must be cited in the body of the paper. Tables, figures and references should be numbered in the order in which they are cited in the text. All graphs and figures should be neatly drawn or plotted and bold enough in case of enlargement.*

The Standard International (SI) system of units should be used in all manuscripts. Unusual symbols, abbreviations or notations should be defined when first mentioned in the text.

Authors should also submit CD (Compact disc, not diskette) containing their manuscripts done in Microsoft word 2003 and NOT in PDF. Authors should be sure that their soft copy is VIRUS-FREE, otherwise the paper would be rejected and any paper not on CD would also be rejected.

Manuscripts should contain the following headings, where appropriate: **Title** (followed by the author's name, address, e-mail and phone number); **Abstract** (that is, a brief summary of the contents and conclusion of the paper, not exceeding 200 words); **Introduction, Theoretical analysis, Experimental work, Results and Discussion, Conclusion, Acknowledgement and References. The numbering of the headings and subheadings and references should be as in the Journal of NAMP.**

All papers will be acknowledged and refereed and papers once received will not be returned to authors. Contributors of an accepted paper will be expected to pay a publication charge. As a result of the highly unstable economic climate, publication charges are subject to frequent review. Contributors of articles are therefore expected to liaise with the Editor-in-chief to obtain the most recent information on the charges they are to pay.

*Professor J.O.A. Idiodi,
Editor-in-chief,
e-mail address:jidiodi@hotmail.com,
Department of Physics,
University of Benin, Benin City,
Nigeria.*

Contents

===== :

A New Weibull- Odd Frechet G Family of Distributions	<i>Usman A, S. I. S. Doguwa, B. B Alhaji and A. T. Imam</i>	133
On Theoretical Study Of <i>Rayleigh</i> -Exponentiated Odd Generalized- <i>X</i> Family Of Distributions	<i>A. Yahaya and S. I. S. Doguwa</i>	143
Firewall-Based Regression Tests Selection Approaches: A Review	<i>Samaila Musa and Jibril Lawal</i>	155
Improved Solow Growth Model On Time Scale	<i>Abimbola L.A., Ayansola O.A. and Olajide J.T.</i>	159
Statistical Distribution of Novel Coronavirus in Nigeria	<i>Fantola J.O., Adebisi A.A. and Ganiyu K.A.</i>	165
Dual Solution Synthesis Of CUS: ZNS Alloyed Thin Films For Possible Applications	<i>E.C. Nwaokorongwu, A.D. Asiegbu, L. Nnanna, U.P. Okpechi and U. JOSEPH</i>	173
Determination Of Electrical Parameters And Thickness Optimization Of Cu ₂ O/Gasb Tandem Solar Cell Using Scaps Software	<i>Abdu Yunusa and A. Yakubu</i>	179
Structural and Dielectric Study of Sr ²⁺ Substituted Barium Hexaferrite	<i>Y. Abdu and I.M.Musa</i>	187
Petrophysical Evaluation Of Z-Well In X-Field, Niger Delta Basin, Nigeria	<i>E. J. Ighodaro and M. O. Eruoto</i>	195

TRANSACTIONS OF THE

NIGERIAN ASSOCIATION OF MATHEMATICAL PHYSICS

Vol. 14

Contents: = = = = = = = = = = = = = = = =

Conditional Expectations on Partial Generalized Von Neumann Algebra <i>A. A. Tijjani and B. Dangana</i>	1
Convolution Properties and Coefficient Inequalities of λ -Pseudo Analytic Univalent Functions <i>Gbolagade A.M. and Salaudeen K.A.</i>	7
New Results on A Certain Class Of Analytic Functions <i>Folashade Mistura Jimoh and Mohammed Umar Faruq</i>	15
On The Group-Theoretic Properties Of Power Set Of Finite Set Under The Operation Of Symmetric Difference <i>Amina M. L. and Abdul Iguda</i>	21
Non-Commutative Stopping Times And Time Projections In A Filtered Hilbert Space <i>A. A. Muhammad and A. A. Tijjani</i>	27
Deriving the Riemmanian Curvature Tensor Through Howusu Metric <i>Obaje V.O. and Ekpe O.E</i>	33
Estimation of Frequency, Luminosity, and the Expected Time of Merger of Gravitational Wave Generated By Binary Black Holes. <i>Bringen B., Girma D. P. and Bakwa D. D.</i>	37
On the Special Cases of the Generalized Max-Plus Eigenvalue Problem <i>Abdulahdi Aminu and Ishaq Inuwa Mamunu</i>	47
Theoretical Study of a Two Patch Metapopulation Schistosomiasis Model <i>Olowu O.O., Ako I.I. and Akhaze R.I.</i>	53
On The Analysis of a Two Patch Schistosomiasis Model. <i>Olowu O.O., Ako I.I. and Akhaze R.I.</i>	69
Optimal Debt Ratio and Consumption Plan for an Investor under Inflation Risk And Capital Gains Tax. <i>C.B. Ibe and K.E. Obie</i>	79
Investigation And Analysis Of Turning Element Using Finite Element Method <i>Aliemeke B.N.G., Umufu O., Ogheneovo R.J. and Enode I.T.</i>	89
Approximate Solutions For Mathematical Modelling Of Monkeypox Virus Incorporating Quarantine Class <i>Somma S. A., Akinwande N. I., Ashezua T. T., Nyor N., Jimoh O. R. and Zhiri A. B</i>	95
Order Statistics Approach To Estimating Missing Data In Flexible Elliptical Processes <i>A.T. Sóyínká, A.A. Olósunde, A.O. Wálé-Oròjo and K.M. Yusuff</i>	111
Development Of Interval Type-2 Fuzzy Logic Framework For Academic Staff Appraisal <i>Umoh U.A., Robinson S.A., Robinson E.S. and Udoh AE.</i>	117
A Short Note On The Two-Person Zero-Sum Game <i>V. U. Ekhosuehi and O. Enagbonma</i>	127
