

# TRANSACTIONS OF THE NIGERIAN ASSOCIATION OF MATHEMATICAL PHYSICS [TNAMP]

*New*

## Guidelines for contributors

Manuscripts should be submitted in triplicate copies along with a non-refundable fee of **₦2,000.00** (Two thousand naira only) in bank draft written in favour of Professor J.O.A. Idiodi, whose address appears below. Manuscripts can also be submitted via e-mail to the Editor-in-chief (see the e-mail address below) **Currently issues of the Transactions appear every year in the months of January, March, May, etc.**

Articles are entertained all the year round but authors wishing their manuscript to be published in any of the journal issues should endeavor to submit their manuscripts at least two months earlier than the month of the Journal issue.

The submission of a paper implies *it has not been* published elsewhere, and it is not under consideration for publication with other journals. Once a paper is accepted, it is assumed that the author has ceded the copyright to the Nigerian Association of Mathematical Physics.

Manuscripts must be in English Language, should be typed in double spacing and should not exceed 20 typed A4 paper in length. Authors are urged to pay careful attention to symbols, which should be typed neatly and unambiguously, *using equation editor (NOT SYMBOLS) and separating equation number from the equation file and each equation statement should NOT BE GROUPEd and should be properly aligned to distinguish subscripts and superscripts. Any paper with mathematical equations, typed without using equation editor would not be accepted and equations should not be grouped as objects. All tables, figures and references must be cited in the body of the paper. Tables, figures and references should be numbered in the order in which they are cited in the text. All graphs and figures should be neatly drawn or plotted and bold enough in case of enlargement.*

The Standard International (SI) system of units should be used in all manuscripts. Unusual symbols, abbreviations or notations should be defined when first mentioned in the text.

*Authors should also submit CD (Compact disc, not diskette) containing their manuscripts done in Microsoft word 2003 and NOT in PDF. Authors should be sure that their soft copy is VIRUS-FREE, otherwise the paper would be rejected and any paper not on CD would also be rejected.*

Manuscripts should contain the following headings, where appropriate: **Title** (followed by the author's name, address, e-mail and phone number); **Abstract** (that is, a brief summary of the contents and conclusion of the paper, not exceeding 200 words); **Introduction, Theoretical analysis, Experimental work, Results and Discussion, Conclusion, Acknowledgement and References. The numbering of the headings and subheadings and references should be as in the Journal of NAMP.**

All papers will be acknowledged and refereed and papers once received will not be returned to authors. Contributors of an accepted paper will be expected to pay a publication charge. As a result of the highly unstable economic climate, publication charges are subject to frequent review. Contributors of articles are therefore expected to liaise with the Editor-in-chief to obtain the most recent information on the charges they are to pay.

*Professor J.O.A. Idiodi,  
Editor-in-chief,  
e-mail address:jidiodi@hotmail.com,  
Department of Physics,  
University of Benin, Benin City,  
Nigeria.*

# Contents

The Effects Of Pressure On The Structural, Electronic And Mechanical Properties Of The Half Heusler Alloy Vrusb	<i>Okunzuwa I.S. and Babalola M.I.</i> 121
Influence Of Deposition Cycles On Synthesis And Characterization of SNS/SNO <sub>2</sub> Material For Solar Cell Application Via Silar Method	<i>Okunzuwa, I.S. and Egwunyenga N. Josephine</i> 127
Potential Application Of Waste Water Satchet And Plastic Bottles In The Production Of Concrete Tiles	<i>Aisien E.T. and Okpewho M.F.</i> 133
Effects Of Variable Viscosity And Thermal Conductivity On Steady Natural Convection Couette Flow Having Suction/Injection	<i>Tafida M. Kabir, Abiodun O. Ajibade and Lawal Umar</i> 139
Analysis Of Average Temperature And Humidity Of Lagos State With Response To Carbon Monoxide Emission Using Wireless Sensor Networks	<i>Kelvin Ovabor and Simon Apeh</i> 151
Comparative Analysis Of Pump Speed Variation In Well Control Procedure	<i>Usiosefe Benedict Ikponmwosa and Ikponmwosa Ohenhen</i> 161
A Mathematical Assessment Of The Extent Of Heavy Raindrops And Manure Fertilisation On Topsoil Fertility And Crop Yield	<i>Sarki D. S., KwariL. J., Gotep B.D., Sarki B. D. and Yilleng A.M.</i> 167
An Internet of Things (IoT) Based Smart Waste Bin Monitoring System	<i>Erameh Kachikwu B. and Odey Nicholas T.</i> 173
Investigating The Influence Of Project Personnel's Emotional Intelligence And Transformational Leadership On Construction Site Workers' Health And Safety Performance	<i>Okorie V.N. and Imafidon M.</i> 179
<b>Erratum:</b> An Evaluation Of Government's Performance In Nigeria Using The Fuzzy Logic Techniques.	<i>M.O. Odighi, F.O. Ikpotokin and C.C. Egbon</i> 185
<b>Erratum:</b> Theoretical Study of a Two Patch Metapopulation Schistosomiasis Model	<i>Olowu O.O., Ako I.I. and Akhaze R.U.</i> 193
<b>Erratum:</b> On the Analysis of A Two Patch Schistosomiasis Model	<i>Olowu O.O., Ako I.I. and Akhaze R.U.</i> 194

# TRANSACTIONS OF THE

NIGERIAN ASSOCIATION OF MATHEMATICAL PHYSICS

Vol.15

## Contents: = = = = = = = = = = = = = = = =

Modified Boundary Value Methods For Solving Partial Differential Equations	<i>B.T. Olabode, M.K. Duromola and O.F. Allen</i>	<i>1</i>
Solution Of Fourth Order Boundary Value Problems of ordinary Differential Equations Using Hybrid Finite Difference Block Methods	<i>S.O. Soladoye and Y.A. Yahaya</i>	<i>7</i>
Analytical Study Of The Effect Of Change In Decay Parameter On The Contaminant Flow Under The Neumann Boundary Conditions	<i>Jimoh O.R. and Adebayo A.</i>	<i>13</i>
Numerical Solution For The Pipe Diameters And Wall Thickness Of Water Hammer Model Using Crank-Nicolson Algorithm	<i>Ayodele V.I. and Falade K.I.</i>	<i>19</i>
Solution Of An Infection Age-Structured Mathematical Model For Tuberculosis Disease Dynamics Using The Homotopy Perturbation Method	<i>T. T. Ashezua</i>	<i>35</i>
A Comparison Of Classification Algorithms On Students' Performance In Computer Science Programme Using Weka	<i>S.A. Ibrahim, K.S. Isiaka and I.O. Mustapha</i>	<i>43</i>
Another Extension Of The Lomax Distribution: Properties And Application	<i>David R.O., Obalowu J., Abdullahi I., Nnamani C.N. and Umar A.A.</i>	<i>47</i>
Irreversibility Analysis For A Thin Film Of Third-Grade Fluid Over Heated Incline Plate	<i>J.C. Ukaegbu, D.M. Okewole, T.A. Yusuf and S.O. Adesanya</i>	<i>59</i>
Chance-Constrained Programming With Stochastic $a_{ij}$ : An Application	<i>C.I. Nwokike, C. Nwutara, G. O. Nwafor, T. W. Owolabi, I. C. Obinwanne, K.M. Koko and M. O. Oladejo,</i>	<i>65</i>
Modified Order-4 Explicit Linear Multistep Technique For Time Series Forecasting	<i>C. I. Nwokike, G. O. Nwafor, B. B. Alhaji, T. W. Owolabi, and I. C. Obinwanne and C. Nwutara</i>	<i>73</i>
A Comparatively Efficient Method Of Generating Random Samples From The Gamma Distribution Using Acceptance-Rejection Method	<i>N. Ekhosuehi and C. O. Odijie</i>	<i>81</i>
Developing A New Transmuted Rayleigh Pareto Distribution	<i>Habibu Umar and Sani Doguwa</i>	<i>91</i>
Analysis Of Distance Constrained Vehicle Routing Problem For The Abuja Post Office	<i>Achaku D.T. and Sani B.</i>	<i>97</i>
Perturbations In Coriolis And Centrifugal Forces On The Positions And Stability Of Elliptical Equilibrium Points In Robe's Restricted Three-Body Problem Under Oblate-Triaxial Primaries	<i>Achonu Joseph Omale, Veronica Ugbedejo Cyril- Okeme and Friday Mona. Edibo</i>	<i>107</i>
Evaluation Of Excitation Function Of Nuclear Data On Proton Induced Reactions On Iridium	<i>Temitope Funmilayo Ojo and Idris Ahmad</i>	<i>113</i>
