

JOURNAL OF THE NIGERIAN ASSOCIATION OF MATHEMATICAL PHYSICS

[TNAMP]

New
Guidelines for
contributors

Manuscripts should be submitted in triplicate copies along with a non-refundable fee of **₦2,000.00** (Two thousand naira only) in bank draft written in favour of Professor J.O.A. Idiodi, whose address appears below. Manuscripts can also be submitted via e-mail to the Editor-in-chief (see the e-mail address below) **Currently issues of the Journal appear every year in the months of January, March, May, July, September and November.** Articles are entertained all the year round but authors wishing their manuscript to be published in any of the journal issues should endeavor to submit their manuscripts at least two months earlier than the month of the Journal issue.

The submission of a paper implies *it has not been* published elsewhere, and it is not under consideration for publication with other journals. Once a paper is accepted, it is assumed that the author has ceded the copyright to the Nigerian Association of Mathematical Physics.

Manuscripts must be in English Language, should be typed in double spacing and should not exceed 20 typed A4 paper in length. Authors are urged to pay careful attention to symbols, which should be typed neatly and unambiguously, *using equation editor (NOT SYMBOLS) and separating equation number from the equation file and each equation statement should NOT BE GROUPEd and should be properly aligned to distinguish subscripts and superscripts. Any paper with mathematical equations, typed without using equation editor would not be accepted and equations should not be grouped as objects. All tables, figures and references must be cited in the body of the paper. Tables, figures and references should be numbered in the order in which they are cited in the text. All graphs and figures should be neatly drawn or plotted and bold enough in case of enlargement.*

The Standard International (SI) system of units should be used in all manuscripts. Unusual symbols, abbreviations or notations should be defined when first mentioned in the text.

Authors should also submit CD (Compact disc, not diskette) containing their manuscripts done in Microsoft word 2003 and NOT in PDF. Authors should be sure that their soft copy is VIRUS-FREE, otherwise the paper would be rejected and any paper not on CD would also be rejected.

Manuscripts should contain the following headings, where appropriate: **Title** (followed by the author's name, address, e-mail and phone number); **Abstract** (that is, a brief summary of the contents and conclusion of the paper, not exceeding 200 words); **Introduction, Theoretical analysis, Experimental work, Results and Discussion, Conclusion, Acknowledgement and References.** The numbering of the headings and subheadings and references should be as in the Journal of NAMP.

All papers will be acknowledged and refereed and papers once received will not be returned to authors Contributors of an accepted paper will be expected to pay a publication charge. As a result of the highly unstable economic climate, publication charges are subject to frequent review. Contributors of articles are therefore expected to liaise with the Editor-in-chief to obtain the most recent information on the charges they are to pay.

*Professor J.O.A. Idiodi,
Editor-in-chief,
e-mail address:jidiodi@hotmail.com,
Department of Physics,
University of Benin, Benin City,
Nigeria.*

Contents

===== :

Model Equations for Predicting The Relationship Between Dye/Anode Thickness And Time	<i>Efurumibe, E.L.</i>	131
Estimation of Entrance Skin Dose and Effective Dose of Patients Undergoing X-Ray Examinations Using Mathematical Models	<i>Hankouraou Seydou and Hamza Abubakar Hamza</i>	135
Well Correlation and Seismic Stratigraphic Analysis of “Ena Field”, Niger Delta Basin, Nigeria	<i>F. A. Lucas and O.O. Efemena</i>	145
Sequence Stratigraphy of Neogene Coastal Swamp I, Western Niger Delta Basin, Nigeria	<i>F. A. Lucas and O. O. Efemena</i>	149
SMS-Based Healthcare Faq Information Retrieval System	<i>Ademola Olusola Adesina</i>	153
Kaplan Meier Estimator and the Log Rank Test on Survival Analysis of Under Five Mortality Patients of Pneumonia: A Study of Stella Obasanjo Women and Children’s Hospital Benin City, Edo State, Nigeria.	<i>Izomo E.J. and Ogiugo G.O.</i>	169
Intellectual Property Policy: A Tool for Harmonizing Entrepreneurship and Innovations in Tertiary Institutions Using Chi-Square.	<i>Kingsley-Omoyibo, Q.A.</i>	179
Construction and Performance Evaluation of a Damaged Efficient Plantain Slicer For Ripe And Unripe Plantain	<i>Kingsley-Omoyibo, Q.A.</i>	185
First Principles Investigation of the Structural and Electronic Properties of 11 $\bar{2}$ 0 Surface of Wurtzite Cos	<i>Timothy Chibuike Chibueze</i>	197
Fabrication of High Reflector Mirror for Optical Application Using MgF ₂ and ZnS	<i>A.M. Bello, D. Dahuwa and M. Buba</i>	201

Contents: = = = = = = = = = = = = = = =

A Proof of a Supremum-Infimum Property of \mathbb{R}	<i>Sunday Oluyemi</i>	<i>1</i>
A Proof of the Divergence Criterion	<i>Sunday Oluyemi</i>	<i>11</i>
On Multiset Relations and Multiset Basis for Multiset Topology	<i>A. J. Alkali and H. Dauda</i>	<i>15</i>
On Maximum Works and Stretches Performed by Transformations of a Finite Set	<i>Abdussamad T. Imam and Pokalas P. Tal</i>	<i>21</i>
Euclidean Null Controllability of Dynamical System with Lumped, Multiple Constant Delays in the State	<i>Ateke R. C. I., Davies I. and Akuro S.</i>	<i>29</i>
Observability of Dynamical Systems with Multiple Constant Delays in the State	<i>Seminiworima A., Davies I. and Ateke R. C. I.</i>	<i>33</i>
Enhancing the Mean Ratio Estimators for Estimating the Population Mean Using Mixed Parameters	<i>Damisa S.A., Alhaji B.B. and Doguwa S.I.S.</i>	<i>39</i>
Impact of Microeconomic Variables on Economic Recession in Sokoto State	<i>U. I. Ahmed, N.M. Lawal and A.A. Malumfashi</i>	<i>51</i>
Impact of Credit Risk Management on Profitability of Deposit Money Banks in Nigeria	<i>Ahmed U.I., Zakari Y. and Oboyi G.A.</i>	<i>57</i>
Effect of Preprocessing on Sentiment Analysis Using Naïve Bayesian and Stochastic Descent Gradient on N-Grams	<i>Abdullah K-K. A, Sodimu S. M., Efuwape B. T., Solanke O. O., Olubanwo O. O. and Olasupo A. O.</i>	<i>67</i>
A Mathematical Model on the Transmission Dynamics of Lassa Fever with Variable Human and Rodent Population	<i>Onah I. S. and Adewoye. R.A.</i>	<i>75</i>
Queuing Theory Approach in Improving the Quantum of Service Delivery in Commercial Banking Sector	<i>Abdulmajeed Inya Khadijah and Abubakar Yahaya</i>	<i>83</i>
Comparative Analysis Of Initial Feasible Solutions To Balanced Transportation Problems	<i>Akeremale O. C., Anthony O. F. and Olaiju A. O.</i>	<i>89</i>
Stock Market Movement Direction with Ensemble Deep Learning Network	<i>D.O. Oyewola, K. A. Al-Mustapha, E.G. Dada and O.A. Kennedy</i>	<i>103</i>
Lattice Dynamics of Rocksalt Structure Of Pbs Under Pressure	<i>Timothy Chibuike Chibueze</i>	<i>117</i>
Determination of Concentrations of Some Heavy Metals in Cow Fresh Milk Obtained From Gujba Local Government Area, Yobe State	<i>Hankouraou Seydou and Yusuf Mohammed Auwal</i>	<i>123</i>
